

## EAST RENFREWSHIRE'S POPULATION – WHAT TO EXPECT

**East Renfrewshire's population is growing faster than previously projected and faster than Scotland as a whole**

The number of people living in East Renfrewshire is projected to increase by 7.6% by the year 2025 (this is higher than previous projection of 5.7% and higher than the Scottish rate of growth of 3.2%)

The increase in East Renfrewshire will be as a result of more people moving into the area

**The two age groups that will grow the most**

Children and young people aged 0-15 years

Older people aged 85+

**More houses are needed for three reasons**

**Demand will increase for services**

For older people, as well as general public services (such as health and care, leisure and environmental services)

More places will be needed in early years, primary and secondary education establishments

East Renfrewshire currently has the highest average household size in Scotland, but this is projected to shrink as more people live alone

East Renfrewshire now has the highest female life expectancy at birth in Scotland, and the second highest male life expectancy
